EXILUS

We value your opinion and strive to make your experience better. Help us improve by answering our 5-minute survey

- This mod can be acquired by attaining the rank of **Genius** under the [Cephalon Suda](#), or the rank of **Flawless** under the [New Loka](#), and spending  **25,000** to purchase.
- This mod can periodically be acquired from [The Circuit](#).

Notes

- Recasting costs no additional [Energy](#), and places a Resonator-shaped marker on the ground.
- Once the Ability is recast, the Resonator will stay at the marker for the remaining duration of the Ability.
 - Recasting the Ability a second time will move the Resonator to a new location, provided that marker is not within the radius of the previous one.
- Holding down the Ability button for 1.5 seconds resets the marker, allowing Resonator to move freely once again.
- Can be equipped in the [Exilus slot](#).
- The speed at which Resonator moves to the selected location is affected by [Ability Strength](#). Thus, this means that with a negative Ability Strength, the Resonator can move *slower* than normal. This *can* be useful for "herding" groups of enemies to a specific location without moving too fast and getting Resonator out of attraction range.
