The **factions** in [WARFRAME](#) are the civilizations and groups fighting for supremacy in the solar system; their conflict is the backdrop of the game's missions. Because nothing in the game indicates an alien origin of any faction, it is assumed that they all are human, trans-human, or created by humans.

The only playable faction are the [Tenno](#). Other factions such as the [Grineer](#), the [Corpus](#), the [Infested](#), the [Sentient](#), the [Stalker](#), the [Narmer](#), [The Murmur](#) and the [Orokin](#) are presented as adversaries, while the [Syndicates](#) and the [Wild](#) are mostly neutral, but can act as allies or enemies to the Tenno.

 **Tenno**

*They were called Tenno. Warriors of blade and gun: masters of the Warframe armor. Those that survived the old war were left drifting among the ruins. Now they are needed once more.*

# Grineer

*They say there is power in numbers - the Grineer are living proof. Wretched from centuries of cloning that has left their genetics in decay, this horde expands their vile empire through brute force, conquering anyone who tries to stop them.*

# Corpus

*The Corpus embody the cold vacuum of space - heartless and bent on taking anything left unprotected. Driven by profits, the Corpus Board's small numbers are supplemented by their legion of robot proxies, optimized for quick and efficient destruction.*

# Infested

*The Infestation is more than a disease - it is a horror of twisted flesh, monsters made into reality. The blight consumes its victims, transforming them into unrecognizable atrocities controlled by rabid impulse.*

*The Infested are a single-minded scourge that belongs in the realm of nightmares, but instead chooses to invade ships and colonies, leaving only death and destruction in its wake.*

# Orokin

*The highly revered Orokin civilization built sovereignty on a culture of art, technology and architecture. To prove oneself worthy of elevated social status, one must face Orokin trials in the golden and majestic Halls of Ascension. At one time a utopian society of omniscient leadership, the great Orokin Era ended in a divine realization of their own ignorance.*

## Stalker

*Some have walked these desolate worlds while you have slept. Some like me. I remember what you did. I remember the day. [...] Now I hunt, dividing your numbers. Watching from that dark place, cataloging your sins, I am the ghost of retribution. You may forget but you are not innocent.*

## Syndicates

Syndicates are groups of interest operating throughout the Origin System separate from the [Corpus](#), [Grineer](#), and the [Tenno](#). These groups have their own ideologies and goals regarding the fate of the system, with some inevitably in disagreement with at least one other syndicate, though

alliances between said syndicates exist.

## Post-The New War Factions

### [Narmer](#)

*All as one. A nightmare is over.  
Finally we see clearly. Finally we  
speak freely. Savor the taste of  
liberty my friends. Don't ever  
relax your vigilance. All as one.  
Future generations won't  
remember the Tenno  
oppression, but we do. We bear  
the scars, we mourn the dead,  
and we must never allow  
ourselves to forget. All as one.*
