Leverian

*"Hello there. So, first time then?
Drusus Leverian. Welcome to my
humble cabinet of curiosities. Drop
any donations in the little box. Now,
the Leverian is a bit of a work in
progress, but please do look around.
I only ask you be gentle with the
collection. The displays are quite
valuable, quite rare, and some may
still be... armed."*

—[Drusus](#)

The **Leverian** is a museum of artifacts curated by the enigmatic [Drusus Leverian](#). These galleries serve to shed light on [WARFRAME](#)'s lore, each one being typically centered around a happenstance but historically significant tale of a [Warframe](#); that is recreated by Drusus' in his investigations. Though the particular Warframe involved in these stories is not necessarily one of unique importance (such as being the first of its kind), they are typically some individual instance of that Warframe along with associated weapons and other items of interest.

Accessing the Leverian

A Warframe's Leverian entry can be accessed through the [Codex](#), via the *Leverian* button on the lower right-hand corner of the screen on the Warframe's codex page, or via the *Leverian* tab of the Codex.

Alternatively, the Leverian can also be accessed on the [Market](#) at either the Warframe's individual page or their collection page. Players can freely walk around

in first-person view and examine the items on display in each gallery, which will bring up a lore entry narrated by Drusus himself relating to the Warframe's story.

Lore & History

The **Leverian**, named after its own avid curator, [Drusus Leverian](#), is a humble museum of artifacts dedicated to preservation of histories and stories, mainly that of the [Tenno](#) and their [Warframes](#). Not wanting history to be forgotten and repeated, Drusus created the museum in hopes of sharing and preserving history for future generations to experience.

Despite receiving donations, Drusus mostly curates his museum independently, gathering and presenting the various artifacts that can be found throughout the Leverian, all while personally narrating the story behind each exhibit.

Even though Drusus acts as the main curator of the Leverian, it is only due to the efforts of its one and only chronicler, and dearest friend of Drusus, the [Warframe](#) [Dante](#), that much of the museum's exhibits even exist in the first place.

Bankruptcy

Due to the overall lack of visitors and donations, the Leverian was soon on the verge of bankruptcy. Sensing an opportunity, [Corpus](#) Founder [Parvos Granum](#) made Drusus an offer: As per a signed contract, Parvos would provide support to the ailing museum in exchange for numerous payments of historical artifacts.

However, when failing to make payment on time, the artifacts from Dante's gallery are confiscated as compensation, forcing Drusus to turn to the [Tenno](#) for assistance. As stated by the contract, any missed or late payments will result in immediate forfeiture of the Leverian, and will transfer ownership to Parvos. With the help of Drusus' old friend [Loid](#), the Tenno use Albrecht's old [Arterial Conduit](#) network to gather [Entrati](#) artifacts as a favor for the curator.

Notes

- There is a small donation box beside the gallery entry, where players can donate [Credits](#). Drusus will comment on the donation, expressing either resignation or excitement depending on the number of credits donated. The number of Credits donated will affect the type of greeting Drusus gives to the player whenever they

- Each gallery contains a hidden item called a **Prex**, a tarot card representing the gallery's subject Warframe which can also be used as an **Orbiter decoration**. These can only be seen and collected by players if they have mastered the Warframe (reaching Rank 30, in either default or Prime variant). The location of the Prex cards are as follows:

Trivia

- The name "Leverian" appears to be a tribute to the *Leverian Collection*, a museum established in 18th Century London and named after its curator Anton Lever, who collected creatures and artifacts for public display.
- Leverian was initially mentioned in the **Update 25.7** (2019-08-29) announcement, but all references to it had been removed prior to launch. It did launch as an undocumented feature with the update, however.
 - Steve Sinclair** claimed the removal was to reduce player hype, deeming the Leverian as a small addition.
- Baro Ki'Teer** may sell cosmetics and decorations themed around the entries in the Leverian:
 - De Nas Pistol Skin** - Secondary Weapon Skin
 - Transmuter Operator Hood** - Operator Helmet
 - Reshantur Cult Syandana** - Syandana
 - Reshantur Cult Spear Skin** - Polearm Skin
 - Exo-Sac Archwing Skin** - Archwing Skin

- In her Leverian entry Nova is described to have created a chain of linked portals in vents she didn't actually go through herself, as if she was able to place portals behind walls and facing the correct direction. It's unknown if this is just a dramatization or mistake on the Leverian's part for misinterpreting these ancient Warframe stories, or a capability Nova is supposed to be able to do lore wise.

De Nas Pistol Skin

This skin immortalizes the pistol Lio De Nas used in self-defense when [Ash](#) came calling, in the story told by Drusus Leverian.

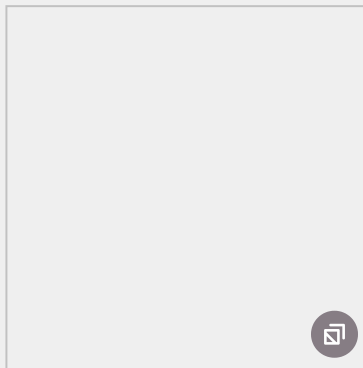

Transmuter Operator Hood

The transmuter Javi was honored with this ceremonial hood on the day of his execution, in recognition of his [Archimedean](#) status.

Reshantur Cult Syandana

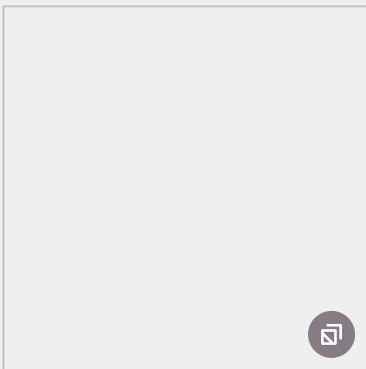

This humble Syandana is modeled on those worn by the Children of Reshantur, who formed into a clan devoted to [Nezha](#) in defense of their home.

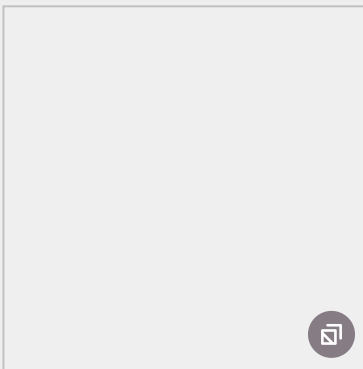

Reshantur Cult Spear Skin

Based on the spears carried by the Children of Reshantur, which were in turn modeled on Nezha's flaming spears.

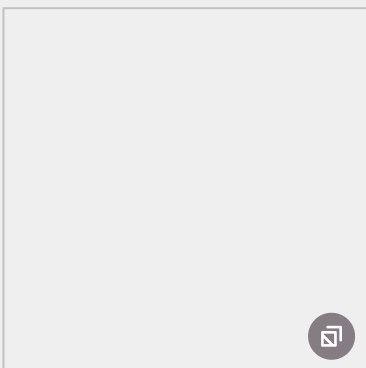

**Exo-Sac Archwing Skin**

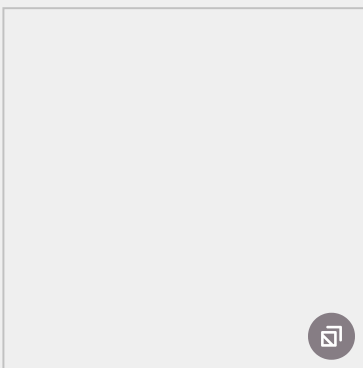

This alternative look for any Archwing is modeled on the exo-sac levitators that the glutton Karissh used to support his additional grafted-on stomachs.

**Secret History Replica**

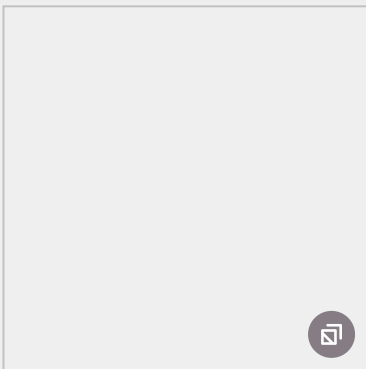

A replica of the archive that held "The Secret History of the Orokin Court," by the historian Porvis. Notably containing the telling of Ivvara and the Myrmidon.

**Aged Claret of De Nas**

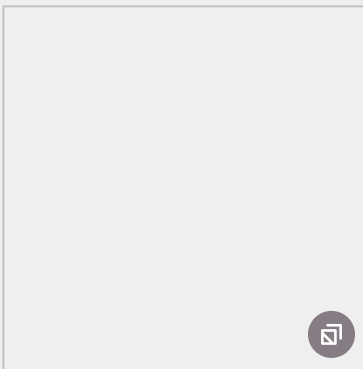

A claret with notes of golden sunlight. The Leverian's history of the Warframe Ash brings into question whether blood runs thicker than fine wine.

**Telamon Dance of Death**

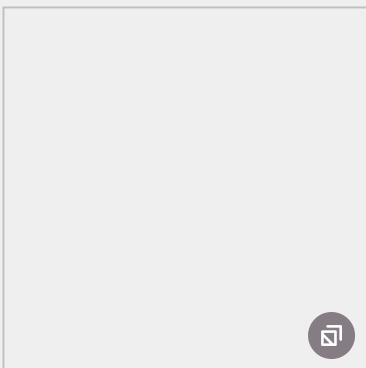

A moment frozen in time, gruesomely magnificent. This harrowing piece was found among a debris field that made Drusus Leverian reconsider legends about the Warframe Atlas.

**Bekran Zaft's Equipment**

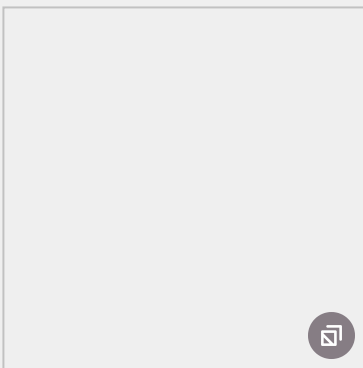

A replica of the very mop and bucket Bekran Zaft was holding when she witnessed the transmutation of the remains of Archimedean Javi by Lavos. As detailed by Drusus Leverian.

**Masker's Theodolite Crewsuit**

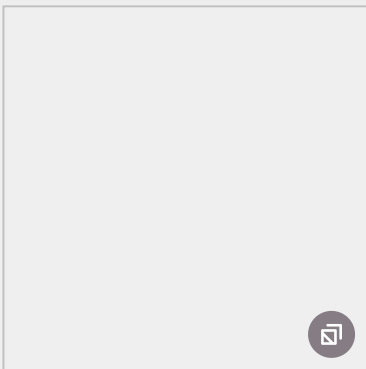

Historian Drusus Leverian recalls that the hostage crew of the passenger vessel, Masker's Theodolite, wore this very crewsuit when they were rescued by Nova.

**Reshantur Child's Tablet**

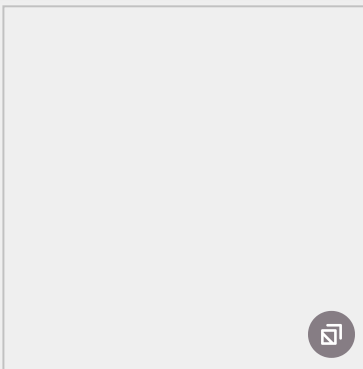

Corpus surveyor Jena Xasparin unearthed these tablets from the site of the massacre of Reshantur. Drusus Leverian's history of Nezha reveals why a child's hand would have carved these designs.

**Karishh's Dinnerware**

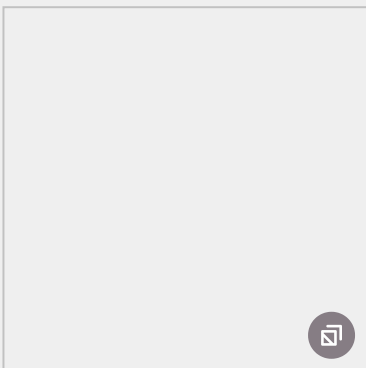

Own the very dishware that the Orokin Executor Karishh ate his final meal from, before becoming a meal himself. As chronicled by Drusus Leverian.

**Javi's Scrawling**

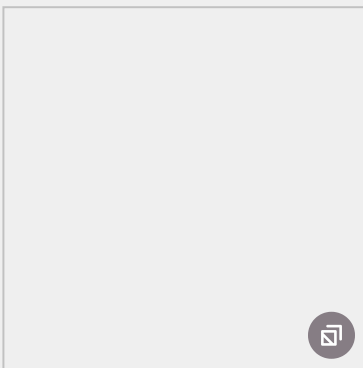

The very scrawling found on the cell walls of transmuter Javi can now be yours. Those who hope to interpret these symbols may find the Leverian exhibit of Lavos useful.

**Scoria Diadem**

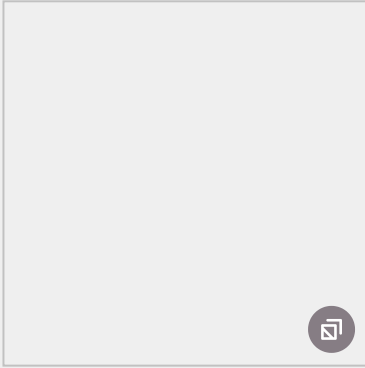

During the Orokin era, those who bore this symbol inspired both admiration and fear. The jewel that adorned the [Scoria](#), alumnae of Orokin school of political assassination, is now yours to wear. Details of the school's ethos can be found in [Ash's](#) section of the Leverian.

**Altra Sentinel Skin**

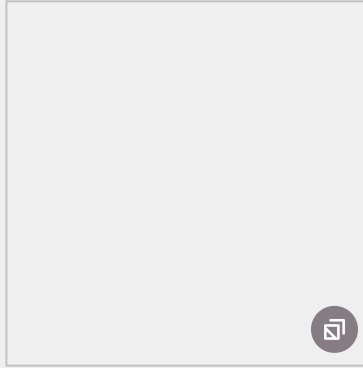

In this skin, your Sentinel will be indistinguishable from the air sentries that guarded the ancient tower of Altra, as described by Drusus Leverian.

**Javi Evolution Scrawling**

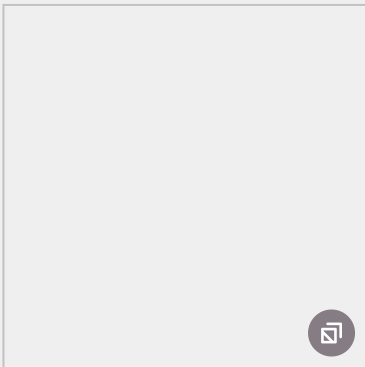

Become a student of Javi. This evolution scrawling is based on Drusus Leverian's records of Lavos.

**Javi Luminosity Scrawling**

Become a student of Javi. This luminosity scrawling is based on Drusus Leverian's records of Lavos.

**Javi Ophiuchus Scrawling**

Become a student of Javi. This Ophiuchus scrawling is based on Drusus Leverian's records of Lavos.

**Javi Genome Scrawling**

Become a student of Javi. This genome scrawling is based on Drusus Leverian's records of Lavos.
