Wield a storm. Fulmin Prime's electric rounds switch between lightning beams and short-range bursts. Wisp quickly swaps between each mode with her elemental prowess.

LONG GUIDE

The Fulminator | Semi-auto Viral Slash Endurance Fulmin + Variants

Endurance focused viral slash semi-auto Fulmin build for armored Grineer/Corrupted without external armor strip.

Mod Breakdown:

- Galvanized Chamber - mandatory multishot mod
- Galvanized Aptitude - mandatory damage mod, giving +80% dmg for each unique status affecting the target. Having just three status effects from innate elements gives +240% dmg (3.4x multiplier), and on Fulmin's Semi-auto mode specifically, this is MULTIPLICATIVE to other base damage sources like Serration/Arcanes.
- Internal Bleeding - [Fulmin]'s semi auto mode has forced impact on every shot, meaning every shot has a 70% to make a slash proc, which bypasses armor. The fire rate just needs to be below 2.5 for maximum slash chance. This means you cannot run any fire rate buffs that exceed 44% (either from mods or external buffs like Haste mote, Harrow etc, arcane acceleration etc).
- Critical Delay - mandatory crit mod
- Vital Sense - mandatory crit mod
- Primed Bane of Corrupted/Grineer- double dips DoT for final +140.25% dmg boost (2.4025x multiplier), separate to Serration and G.Aptitude. If you don't like banes, you can swap this out for Serration, Bladed Rounds, Hammer shot.
- Arcane - Primary merciless procs on slash proc kills, while deadhead requires direct headshot kills.

stormbringer or high voltage. For Radiation toxin, swap Internal Bleeding and Rime Rounds for Wildfire + High Voltage/Stormbringer.

For thrax/acolytes/infested (without armor strip) - run raw corrosive by swapping Internal Bleeding and Rime rounds for Infected Clip + Vile Acceleration.

For Zephyr - simply swap [\[Internal Bleeding\]](#) for [\[Hunter Munitions\]](#).
