Haven't edited a page in a while, forgot to give a reason and mark it as minor:
Previous iteration mistakenly listed Cavia Rank - 3 as named "Angel", The
Holdfasts' Rank - 5

Why are you guys crying how "expensive" this is... its literally 20 minutes of
farming it

A Fandom user • 8/3/2024

It's literally not 20 minutes of farming.

A Fandom user • 9/18/2024

Sure, its 20 mins of farming, if you got a maxed out build and maxed out MR
and no longer need to do it at all ever. Sure i will do it in 20 mins if you give me

Can someone do the Math and let us know if its Cheaper getting from [Bird 3](#) (**50,000** standing with [Cavia](#)) or [Market \(20 Plat\)](#) or if its a regular drop from Netracells?

A Fandom user • 6/24/2024

It is cheaper to buy it from the market. 50K standing is 5 good arcanes which sell for more than 20p. And Netracells also drop it occasionally.

50 000 rep for 1 adapter, it's insane, 2 days of farm for the most leveled up players.

Or you get them for just doing weekly netracells and don't have to worry over-

What's nuts is that you can buy arcanes for the same amount of standing, trade them, buy the arcane adapter from the market AND STILL HAVE EXTRA PLAT
