Notes

- Upon killing an enemy with a heavy attack, Pennant's attack speed rises by 50%, indicated via an icon and timer next to the health bar. The buff duration is dependent on the combo multiplier at the time of the heavy attack, beginning at 2 seconds with no combo counter and increasing by 4 seconds for each combo multi; **Duration = 4s × (Combo Multi - 1) + 2s**. This gives a maximum duration of **46** seconds at a 12x combo multi.
 - Making multiple heavy attack kills within the buff's duration will grant additional buffs, each having their own duration.
 - Multiple buffs stack additively with each other.
