Best windows 11 activator?

Question

I currently have windows 10 pre activated but I dont want to install windows 11 as an update, I wuant to do a clean install but therefore I will lose the activation right? I searched the megathread for the best win11 activator but didnt get a solid answer.

[MAS](#) is the best activator. You can permanently activate Windows 10-11, including LTSC, via HWID activation.

Well you can actually register for Windows Insider Channel, and you will get the bleeding edge updates from Microsoft and it is totally free and you won't have to ever activate your Windows manually, ever. Legit and the most safe method to get Windows. Period.

I will share the link from where you can get Insider ISOs directly from Microsoft.

Scroll down below, Select Edition > Choose from Beta or Dev Channel and follow the next steps.

After you windows has been installed you can download [Universal Watermark Disabler](#) from Winaero to remove the build info from bottom right corner

I used MAS. Run once, never need to run again. I used to use KMS with Windows 10 and Windows defender kept bitching at be for unwanted software.
