## I'm looking for a headset with a good dynamic mic.

[Headphones - Open Back](#)

I need a good headset or headphone/headset mic combination. I hate dealing with gating/limiting/AI reduction for background noise and i live in a noisy environment with very clicky peripherals. I play a lot of vr so a static mic isn't the ideal solution any more.

My main gaming headphones are old as hell ath-ad700s and i love them. But they are held together with thermo plastic and zip ties. and my mic is a Rode NT-usb, which has a lot of latency and it's gated so much it cuts off a lot of my voice.

I was thinking of just upgrading to some 990s or Senns ( i prefer open back for gaming) and running a Shure WH20 headset mic but i can't find anything about people using the mic for gaming or streaming where they weren't pre-recorded.

I'm not looking to spend a small fortune, general purpose headphones take tumbles i'd rather not cry about.

Either the pc38x or grab the meze boom mic cable and any headphone that uses dual 3.5mm entry (sundara, meze 99 classic, etc)

[Skip to main content](#)[Log In](#)

Both of those mics are wrong for my needs, but thanks.

**Dynamic mic that can attach to headphones? Or a good mic+boom arm recommendation.**
