BlackWidow V4 vs BlackWidow V4 Pro?

Question

Hey all, I'm trying to decide between these two models - other than the programmable dial on the Pro and a USB port, I haven't really seen any noticeable differences besides the \$70 price difference. Can anyone provide a breakdown? Thanks so much!

If you have bought it, refund immediately. Do not take their replacement. They will use the replacement to let your return period expire so that at the end you cannot even do the refund.

Bought a Blackwidow V4 Pro at Best Buy. Pretty sure Razer hasn't even officially announced this yet.
