- Using [Limbo's Cataclysm](#) or [Xaku's The Vast Untime](#) with maximum range and high efficiency will break containers and deposits.
- Killing [Tusk Thumpers](#) in the [Plains of Eidolon](#) is a possible way to farm Iradite in batches.
- Because the amount gained scales based on enemy level, [Steel Path](#) instances will yield ~5-10 Iradite per node. Invisibility can be used to gather significant quantities of Iradite quickly in this way.
