Not like mounted combat is a fully functional system lol

I would say that other than the fact that there are no mounted enemies. It's as functional as Mount and Blades.

Don't insult mount and blades mounted combat with this shit.

That's the thing tho, the mounted combat is basically you boom and zooming enemy foot soldiers, plus pole arms are not convenient to use

I wish there was mounted enemies. Probably got cut. Hopefully for the sequel.

Pole arms I'm alright with not being able to lug them around, as...

A) they're not fleshed out at all. And in the players hands kinda broken.

And

B) they're more a battlefield weapon. Hopefully, maybe, in the sequel there will be more battlefield type missions and you can take one into one of those.

Or jousting

I've found searching saddlebags is quite lucrative if you do it correctly (details inside). I average about \$2.25 per horse. Sometimes I get over \$3.00. What other vehicles can be searched? Stagecoaches?...
