dcx. files aren't working for me

[Help!](#)

I've tried multiple mods that use dcx. files but non of them have worked. I plop all the dcx. files in my mod folder in mod engine 2. Can anyone give me an explanation on how to use these files?

which mods? What's the exact path that the dcx files are being placed in? What specifically do you mean by "haven't worked"?

For example, a sword or armour or whatever would be a "parts" file, so it would go in
/modengine2/mod/parts/[file].dcx

If the dcx file came in folders like /cool hat/green/[file].dcx and /cool hat/blue/[file].dcx, then you need to pick just the dcx file you want to use, and ignore the alternative versions.

! SPOILER

Kinda a curious Lore question are the bosses waiting for tarnished or is the Tarnished running into the boss and it's just a coincidence that they encounter each other??
