Seamless co-op + convergence possible?

Question

Any way to get seamless co-op and convergence to work together?

If not convergence, any of the other overhaul mods?

From [The Convergence Mod Discord](#)

1. Download and install seamless coop normally and launch seamless in vanilla game.
2. Create a new character in vanilla seamless and then quit out of the game.
3. Make a copy of the "elden_ring_seamless_coop.dll" and the "seamlesscoopsettings" from the SeamlessCoop folder and paste them in the ConvergenceER folder.
4. Launch the Convergence Mod using the launchmod_eldenring.bot in the ConvergenceER folder.

Yes, in the Convergence mod's discord, they have a very easy how-to for the installation

This video will teach you how to install both mods, move the files and play the game alongside friends with Convergence enabled, no discord channel required. Don't know why it's taken almost a year for someone to post the video here.

This game is the perfect sandbox for someone like me who loves wolves, the color combination of black and blue, and ice powers in fantasy

Big question, if I'm playing the convergence mod will I be able to play the dlc day one or do I have to wait for the mod developers to release a patch aswell?
