Argo & Vel bolster the warrior who stands fast. Its Heavy Attack sends forth a glaive that ricochets off enemies.

ARGO & VEL BUILDS

BUILDS BY DEMONYX

Red Crits Combo Argo & Vel Build

You can replace [Primed Pressure Point] by any faction dmg mod

You can replace [Gladiator Might](#) by [Quickening](#) or [Berserker Furry](#) depending on your preference.

Replacing the dmg mode by [Berserker Fury](#) or [Quickening](#) can be an option too mostly if you dont want to play with factions dmg modes.

An alternative version is to replace Weeping Wounds with Vicious Frost to get viral status affect.

For arcanes:

- [Melee Duplicate](#) if you want more dmg on light attacks
- [Melee Animosity](#) if you want more dmg on heavy attacks

For exilus: [Dreamer's Wrath](#) or [Master's Edge](#) for the dmg but you can go with the others as well depending on your preferences the block ones for exemple.
