How do y'all feel about mixing denim colors together? Is this working?

It's the only way to do denim on denim in my opinion. Mixing colors is the way to go. Looks good to me

If I'm mixing, light on top and dark on the bottom for me. Just looks better IMO

Looks good but a bit more contrast could help. Maybe a white or black shirt would help. Same with the shoes.

don't be discouraged from trying it sometime. You can tell when it's a decision being made. And that level of confidence shows.

As long as the top and bottom are two different shades you should be good. Though I do think a dark denim jacket with dark jeans can look good. Also, what boots are those?

Ya'll already know as big men, it's hard to make stuff fit. These britches too short, or just right?

First time doing camo with airbrush, pretty happy about the result, but I think there is too much contrast between green and black/brown, what can I do for it ?
