JKAF3

razer and armoury crate help pls

[Support](#)

i just want to know if my razer naga chroma will connect and display in Asus armoury crate?

No....I used Razer peripherals as well and it only can be configured in their software, Razer Synapse 3. I heard there is an open software in github (forgot the name) that can sync with Asus Armoury Crate but I'm not sure on the stability and whether it is reliable.
