## Is there a way to reset my stats or bring them down?

[Game Help](#)

I'm new to the game and thought that the best thing to spend my money on is leveling up my vigor but know my upgrades are so expensive 🤔 Legit caust me 11k just for 1 level for anything

There are many reasons to yell out, "AH NUTS!" But hey: PLANTERS® Nuts are good. So instead, say, "Ahhh, nuts."

Sadly Vigor is the worst stat in the entire game since it's the only stat that becomes completely useless if you git gud and don't get hit but for now you are still in the early game so it doesn't matter too much and if you want you can still change your stats if you beat the boss in the Academy of Raya Lucaria.

Since it's your first gameplay however i would still advice in leveling Vigor a bit because depending on the type of person, you might get frustrated by getting oneshotted while you are still learning how to beat the bosses. Personally i don't mind at all so i never leveled it and i just continued to die until i completely mastered every boss because that's how i like to play.

Don't worry, it's a self-correcting problem.

The further into the game you get, the more runes things are worth. Later on, 11k is nothing.

Just keep going. Don't worry about min-maxing.

Vigor is good an important. You want to have like 40 to 60 depending on the build anyway. Just focus on upgrading other stats you need, for your character concept. Edit: the DLC changed the vigor 40 minimum to 50, better 60. And also raised the general level gor chatacter by a lot. Finishef builds are now between 160 and rune level 250. Not 130 to 150 any more.

if you wanna be better, don't rely on vigor. Let them skills be honed with repetitive failures. Same goes with the way of life. Embrace failures, learn from it
