CODEX

Take down your enemies with magnetic force. Mag alters magnetic fields to provide crowd control and strip enemy defenses. Few can resist her attraction or her repulsion.

This is Mag, a force to be reckoned with.

Mag is a team player, Tenno, and a worthy addition to any squad.

—Lotus

Release Date: October 25th, 2012

Mag is a Warframe based on magnetic force. She boasts high shield strength in exchange for reduced health, and her abilities make her a potent medium for crowd control and manipulation. She is one of three starter options for new players.

Acquisition

Mag is one of the three starter Warframes, alongside [Excalibur](#) and [Volt](#), during [Awakening](#).

Trivia

- Mag's given name is inspired from a shortened form of *magnetism*, used in a feminine fashion (see: *Magdalene*). Other possible inspirations include the concept of *magnitude*, a tribute to her affinity for dealing "in extremes".
- Mag replaced [Volt](#) as an initial choice of Warframe in [Update 7.0](#) (2013-03-18), though Volt would later replace [Loki](#) as a starter Warframe choice in [Update 14.0](#) (2014-07-18).
- The energy of Mag's helmet can be colored with the Warframe's energy colors, instead of the emissive colors.
- Mag is the first female Warframe to possess a [Prime](#) variant.
