How to Change Spell Icons (Custom Icons) in the Official Toolkit

I've created some custom spells, but I'm not sure how to link them to my own Icon images. Any help would be appreciated!

Update: Sort of solved! <https://mod.io/g/baldursgate3/r/adding-skill-and-item-icons> (haven't tried it yet though).

<https://mod.io/g/baldursgate3/r/adding-a-new-spell-basic>

this guide about half way through goes into the icon section re-using the fireball icon. I guess you can start from there to add the icon you wanted. I don't know more than this, but I hope it helps you

Thanks for sharing! Although the guide didn't go too deep into importing images to create custom spell icons, I did manage to change the icon to something more fitting for my spell. Still exploring though! Just made this ring:[Ring of Melancholic Remembrance. for Baldur's Gate 3 - mod.io](#)

As of patch 7, I've been having a LOT of icons missing in-game. Races, subraces, classes, subclasses, etc. Even these little red stars where modded resources are. Anyone know of ...

Need help with coding navigation tabs / is there any way to stylize <details> (accordion) as bootstrap 5 "nav-tabs" or create something like nav-tabs themselves on itch.io with HTML and custom CSS?
