BREAKING: President Trump just threatened 100% tariffs on any country backing BRICS currency.

 @realDonaldTrump

The idea that the BRICS Countries are trying to move away from the Dollar, while we stand by and watch, is OVER. We are going to require a commitment from these seemingly hostile Countries that they will neither create a new BRICS Currency, nor back any other Currency to replace the mighty U.S. Dollar or, they will face 100% Tariffs, and should expect to say goodbye to selling into the wonderful U.S. Economy. They can go find another sucker Nation. There is no chance that BRICS will replace the U.S. Dollar in International Trade, or anywhere else, and any Country that tries should say hello to Tariffs, and goodbye to America!

AITA for feeling betrayed after my wife hid that she could never have kids until years into our marriage?

I (34M) met my wife (33F) about ten years ago. From the very beginning, I knew she was special. We clicked instantly—same sense of humor, same life goals (or so I thought), and just an overwhelming feeling of “this is the person I want to build a life with.” As we dated, I made it very clear that I've always wanted a family. I wasn't pushy about it, but I talked about how I looked forward to being a dad one day, how I wanted to raise kids and create a loving home together. She never gave any indication that sh...
