FairFanfare

2.5Gb PoE injector

Question

Hi everyone, does Unifi make 2.5G PoE injectors? I have 2.5G MOCA going to 2 out of 3 APs. 2 APs on MOCA are using Unifi PoE injectors. from what I understand they are GbE. I was planning to get U7-Pro so trying to figure this question out.

Oh, that's good to know. Showing as 2.5 gigabit connection in the app? Asking because specs say gigabit lan

Technical specifications

Specifications

Model	U-POE-at
Dimensions	93 x 62 x 35 mm (3.66 x 2.44 x 1.38")
Weight	156 g (5.5 oz)
Output voltage	48V DC @ 0.65A
LAN activity indicator	No
Gigabit LAN port	Yes
Remote reset capability	No
Reset button	No
Rated voltage	100—240V AC @ 50/60Hz
Input current	0.75A Max.
Inrush current	<100A peak at 26_
Efficiency	87%
Output ripple	1% max.
Switching frequency	70 kHz max.

I got a U7 Pro recently, I wanted to get the TP-Link TL-PoE260S but it was unavailable where I am.

I ended up getting a TRENDnet 2.5G PoE+ Injector and its working fine.

What's the point of the proprietary "power backup" system (that isn't a UPS and doesn't provide backup power)? Why not just have dual power supplies in the equipment as is?
