Are there summoner builds?

[Discussion](#)

All of my builds in PoE were summoners galore. It was always kana and me as chanters summoning an army of pets. I honestly didnt know this game was part of the PoE universe until a couple days ago so I havent even looked at it. Are we breaking the wheel at least?

The short answer is:

Not really, and only at higher levels / later stages of the game.

The summoning items make a return, and the Ranger tree has a Bear Companion at Level 15.
