Cooking Shows

I've found that there often aren't streams for some cooking shows I like such as: Guy's Grocery Games, Cutthroat Kitchen, ETC. Is there are good addon for these?

they need to be uploaded somewhere and healthy/active for any addon to find them. not very common for reality tv, in general. afaik, there isn't a specific addon for cooking shows. you would just need to try the popular options available and hope for the best.

I find DDL/filehosting sites provide the best and latest cooking shows. For example "lidias kitchen" latest cooking episodes are not available on stremio with RD AD or any torrent sites. I cant event find it on usenet. DDL sites never fails me.

Both of the series you mentioned are available on Torrentio (cached on Real Debrid too). May be, try them first?

Ive generally had good luck finding cooking series using Easynews as my source. They usually have niche show series.
