All my proxies redirect to my TrueNAS Scale dashboard.

As the title says, whenever I make a proxy, it redirects to my main TrueNAS Scale dashboard, even if I change the port. I followed this tutorial: https://www.youtube.com/watch?v=qlcVx-k-02E&t=489s&ab_channel=Wolfgang%27sChannel, except I am using Cloudflare instead. I don't know why it's n...

NPM to Cloudflare not working only on new proxy hosts?

Hey I've been trying to add a new service and I've been getting a 525 SSL Handshake Error, but only on new subdomains I add. I have 6 other subdomains that work perfectly fine with the Cloudflare cert. When I do the curl command on the new subdomain as shown in the cloudflare troubleshooting I get this error...

LetsEncrypt Azure DNS challenges failing suddenly, but only for wildcard certs.

Been using nginx proxy manager with letsencrypt dns-01 challenges for a while now. All worked smoothly for a year or more. Yesterday my wildcard certificate expired and wasn't automatically renewed. When I renew manually I see the _acme-challenge txt record created in my zone but the error that comes back is "some challenges hav..."
