im not an LN reader but out of curiosity I really wanted to know what his D rank skill was so I looked it up. Still has not been revealed.... Ima guess it will be a trump card to kill the hero after hero kills demonlord. Wont be revealed this season.

My guess was something based around memory because in episode 3 he said something along the lines of 'I'm quite confident in my memory'

It's probably something like "lucky"

[↑](#) 5 [↓](#) ...**CynicalCreepy** • 3y ago

hasn't been revealed in the manga, maybe in the LN.

Something pedestrian sounding but can actually be super potent because it's so vague I'm sure

The LN hasn't revealed it either. We'll have to wait

I don't think it's so much that it's a powerful skill, but instead that it's a skill that he could see a way to exploit using his outside perspective instead of the normal mentality that people in this new world have. As an assassin, maybe the ability to hide mana? Would be perfect to assassinate the hero, but that feels more like a C or B rank. Someone mentioned a charisma function, which definitely has its merit, especially if it's proportional to the amount of mana he uses for it. Honestly I think that it's something that allows the amplification of some factor in conjunction with the amount of mana invested. In the intro, there is at least one scene where his eyes have red lightning coming out, which would seem to indicate some kind of physical augmentation, but that could also be explained by his ability to write spells, so theoretically he could write a spell to do the work of any skill related to mana. Maybe not a mana related skill after all? Hmm... either way, you can almost guarantee it will be superficially mundane, but extremely exploitable given his other chosen skills.

I think it was memory, he seems to be able to remember EVERYTHING. All the boiling points, atomic weights and things of metals, all the incantations, his training, his promises, etc...

He even states at one point that he is, "confident in his memory" and the face he pulled when he said it was so serious it sort of emphasised there was more to that statement.

It could be the Scope that he uses in the first episode

Maybe its something like a charging spell thing, like what he did with that orb, normally it would be a low level skill but with his high mana pool + recovery, he would be able to charge more

I think it could be something similar to keyaru ability to change his/someone's identity by healing because he is an assassin after all and the author is redo of healer so maybe the MC will transform in a futa *fcks torran or transform him into a little girl and gey his pssy* destroyed by his man's just like what the author of redo of healer always do

Would be amazing if it is

I've only seen part of the anime so far, but I'm starting to think it's something along the lines of properly pulling off one's plans, or in a more extreme case, the power to make one's plots/plans reality.

I'll try to dance around spoilers best I can, but it feels like almost every episode and major plot point isn't him living as much as it is him reading from an already written book about how he wants or wanted it to happen (since he's been revealing his 'plans' both before and after scenes so far).

I assumed that it was cooking? I thought that's what the whole bit was with him being good at it even in the fantasy world with primitive equipment
