Installing PIA on OpenWRT

Hi, I have a \$20 mini router (GLI GL-MT300N Smart Router) from Amazon with OpenWRT installed and trying to work out how to install PIA on it. Has anyone done this before or found an easy to follow guide?

Thanks

Use OpenVPN.

<https://openwrt.org/docs/guide-user/services/vpn/openvpn/client>

<https://www.privateinternetaccess.com/helpdesk/kb/articles/where-can-i-find-your-ovpn-files>

Are there any docker implementations that provide the same speed as the official PIA client?
