Cannot connect to Luci

I have upgraded my Router, but now I am unable to access the Interface via Luci on my PC, on the PHone and my boys PC it works.

I tried allready cleanin the Cache and Cookies and "set option http_keepalive '0'"

Help me, please

Did you make sure you are on the same subnet? This is rare since most people stay within a 254 host range (192.168.1.x for example), but if you expand beyond that, the router's default IP/subnet mask is 192.168.1.1/24 ([255.255.255.0](#)) and if you're not on 192.168.1.x then it won't work.
