Removed Luci-nginx and can't access router ui from web browser.

Hello all! Like the title says, I removed Luci-nginx by accident and now I can't connect to my router's webui.

How do I recover from this?

I'm on an Archer A7, the last stable openwrt version from August.

Thanks! I connected and ran `opkg install luci-nginx`.

This is what I get for trying to change the theme.
