Screen flipped. What to do? Restart did not help?

QUESTION

Hello all,

Just received my go and started ori. Until now everything was fine. Then the screen flipped 180 degrees. Restarted the whole device, did not help. What can i do?

Go to displaysettings in Windows - choose Display and there is a Option where you can rotate the screen.

The Unit got a flippin gyro inside. Its just a Windows tablet. If you deactivate the rotate Screen toggle under the quicksettings it will not flip. Just hold like you want to use it. Just as any Tablet/Smartphone.

It's within spec. You just have to turn your head 180.
