ShiunsaiOki

Setup AnimeTosho Provider

Description:

Since it have been a few people unable to configure by themselves, and currently Bazarr UI is not the most user friendly on configuring integrations at the moment. This is a step-by-step on how to create your HTTP AniDB client and use the Animetosho provider.

This guide assumes that you have Bazarr already configured and working!

Steps:

1 - Navigate to [AniDB](#) and sign up for an account

I made a project , added a client , set project and client name the same , http and version 1. But it doesn't seem to find any anime subtitles . Is there any good sanity test for this to know if it's working just not finding ?

Hi! Both Anime Tosho and its mirror have been down for a couple of hours now, even if both worked fine. Can't find any info of how long or why...
