fstab - mount /mnt/point - Error: Permission denied

Hi,

I'm trying to set up a fixed mount point for borg in /etc/fstab, as described here:

[borg mount](#)

To allow a regular user to use fstab entries, add the user option:

```
/path/to/repo /mnt/point fuse.borgfs defaults,noauto,user 0 0
```

So I did that and what I got was:

[Read more](#) ▾

It looks like a mounting issue rather than a Borg issue. I'm weak on fstab. As no one else has offered a suggestion either, perhaps ask in one of the Linux groups.

As an aside, why not do it over SSH?

[Borg's wwaldmann says](#) it's an issue with non-Borg code.

[A Manjaro forum post](#) suggests using `sudo chown username:username /mnt/borg`
