You can go to the Notes app > Format > Math Results, then switch it off

Thank you so much!

Is there any way to turn this off of other apps too? Is there a universal setting for this, or do I need to contact app developers directly?

I tried disabling predictive text but it didn't work.

I have to type maths equations a lot and these suggestions annoy me so much.

It's already explained in a [comment](#) that was written 4 months before yours.
