## PleX update broke my reverse proxy configuration

[Help](#)

Hello!

I have a PleX server on my home pc and I have a vpn to my home to access it through private ip. As I have a lot of services running, I installed Nginx, created a url for it, and started mapping.

The problem is:

All of my urls are under one single domain name, i.e., I access media.mydomain.com, it gives me a home page for my internal links, and when I click one, it redirects to media.mydomain.com/plex, and after the last update, plex isn't working anymore! It gives me all white screen, no errors on error.log or access.log on nginx side.

The only error I found is in console from the browser, it gives me this:

```
✖ Failed to find a valid digest in the 'integrity' attribute for resource 'index.html:35
http://.../plex/web/main-8792-35b85b3_-plex-4.136.1-8affb58.css' with computed
SHA-384 integrity 'HoEw02VPLQv1F2S6F5FnZPMHV6+fgUcepj90InrdhK54D+VHaFqPFfbbmAEODRS'. The resource
has been blocked.
```

Unfortunately, no luck at all :(

I tried that config on my side, but it didn't work either! I didn't get the web sockets to work properly, maybe because I'm running nginx directly onto Windows, but I'll try again when I get more time.

Hopefully I'll find a way, until then, I'm accessing with URL + port.

If I have time I'll see if I can see the generated file from npm for Plex. Mine has been working so far...

files.

so thje configs looks like this now:

```
location /plex/ {
    rewrite /plex(/.*) $1 break;
    proxy_pass http://localhost:32400/web/;
    proxy_http_version 1.1;
    proxy_set_header Accept-Encoding "";
    proxy_set_header Upgrade $http_upgrade;
    proxy_set_header Connection 'upgrade';
    proxy_set_header Host $http_host;
    proxy_cache_bypass $http_upgrade;
    proxy_set_header X-Real-IP $remote_addr;
    proxy_set_header X-Forwarded-For $proxy_add_x_forwarded_for;
    proxy_set_header X-Forwarded-Proto $scheme;
    proxy_redirect off;
    sub_filter '/web/' '/plex/web/';
    sub_filter_types html;
    sub_filter_once off;
}
```
