## Latest Adobe CC on Mac?

**Question**

It's been a long time using and loving adobe Zii for Mac.

Now I have to update, what should I use to have the latest version of All Adobe CC Apps?

I already did this search both on google and here on reddit, without finding a clear answer.

I can't find the thread you are speaking about, also I'm new to reddit, i don't have idea what a sidebar/wiki is.

Could you be so kind to give me the link of the thread you are speaking about? (about latest AdobeZii)

Adobe Zii doesn't exist anymore really, go to [torrentmac.net](https://torrentmac.net) (just one of the good websites), and download your app. Then from the folder you downloaded install AntiCC.dmg, CC Runtime.pkg and then the app. Then run Crack.pkg
