Why do people prefer GenP over m0nkrus?

Question

When I mention wanting the pre cracked m0nkrus apps, people suggest using genp instead. What are the differences?

I admit I am ignorant, what are these applications and what do they do? How can I benefit from this knowledge?

I used to use m0nkrus' Adobe CC 2019/2020 Master Collections but I recently switched to GenP because everything I have to do is install Adobe Creative Cloud, install the applications I want and patch them with GenP. I also get the latest updates as well. A major advantage is also not having to download a 20+ GB ISO file just to install 2-3 programs. With Adobe Creative Cloud, I can install whatever program I want, easily.

I used to do the same thing with Adobe CC 2018 (install applications from Adobe Creative Cloud, patch each app seperately using a cracked amtlib.dll file and easily update my applications using Adobe Creative Cloud with the crack still working).
