Adobe Zii Website

Official Mod Post

Decided to make this post after repetitive Adobe Zii website posts recently.

There is **no** official website for Adobe Zii. Any website claiming to be so is not true.

Adobe Zii is created by the TNT Group. Adobe Zii is then released to the public through various distributors and websites such as Cmacked (MacDrop) and Appnee. There is no single website that is the official website/source, they are all just distributors.

Be informed and make informed decisions.

Thank you.
