ONLYOFFICE Workspace vs Nextcloud + Office

Cloud Storage

Hi! I have some Nextcloud experience, but looking at ONLYOFFICE which might be better choice. For small, 3-5 people agency, what is best solution in your opinion? Sharing some pros and cons below is super helpful!

Like many, we looking for file sharing, chat/video conferencing (meetings and chat rooms), document editing, mail/calendar and basic task management. I do want a nice desktop client, and mobile clients, for files but especially for chat / video calls.
