Disable WebUI login?

I have my qbittorrent setup behind a 2 factor reverse proxy and I would really like to remove the default login prompt. I could not figure out how to do that... help :)

Settings>Web UI

Put a checkmark in the "Bypass authentication for clients in whitelisted IP subnets" Enter your subnet. Example:

```
192.168.1.0/24
```

Add your reverse proxy cluster by whitelisting ``172.0.0.0/8``. Somewhere in here is your entry-point. I'm using Traefik and Authentik on TrueNAS and setup a Authentication Proxy, and I didn't want to authenticate extra for qBitTorrent.
