Immich v1.120.2 ERR_CONNECTION_REFUSED

Just ran the update and cannot connect to the server UI anymore, getting this error:
ERR_CONNECTION_REFUSED.

Does anyone have/had the same problem?

What are the container logs? From what version did you upgrade?

Reply

**larrybg** OP • 5mo ago

Hi [u/Jordy9922](#) Which one of the container logs should I check and how to get it?

Reply

**larrybg** OP • 5mo ago

I've upgraded from v1.117.0

But when I've tried to check the port 2283 with nmap it says port is closed:
PORT STATE SERVICE

2283/tcp closed Invstatus

Found the problem: I didn't change the port in the docker-compose.yml --> <https://github.com/immich-app/immich/releases/tag/v1.118.0>

Thanks, I always download the new docker-compose.yml and do a diff of my old one and apply any changes (I have one path I have added). I noticed the port was different so stupid me changed it back to the old one, thinking that's another change I had made. This fixed it.

First time install. It was up and running great, I changed the Upload Location, but somehow broke immich. How do I troubleshoot?
