Confused on how to access or use Rustdesk Console (Synology Hosted)

Hello,

I can't seem to access the rusdesk console, any tips?

My understanding is the free self hosted option doesn't have a console, and lacks management features. It just gives you control on where you and your clients connect to.

Correct, but I've subscribed to the paid version.

21114 port is for web console, make sure it is open.
then you can access it via `http://<nas-ip>:21114`

<https://rustdesk.com/docs/en/self-host/rustdesk-server-oss/synology/dsm-7/#6-set-port-forwarding-on-your-router>

My organization has a computer slowness issue. Is there some kind of forensic consultant that can help us track it down?
