A web interface for rustdesk?

G'day, I've just setup my own rustdesk server and am wondering if anyone knows of a web interface. The official web console looks like it is removed until they add it to the premium version.

I'm looking for a free one I can run so I can quickly log into my PC from any computer without installing the windows apps.

From what I saw they removed it while they decide if they will have it as a pro only feature. That's all I've found

Reply

blaine07 • 2y ago

That won't do them any good.

Then how are you supposed to manage your server?
