Pirating adobe easier than buying it officially

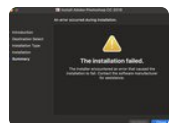

1.4K votes · 132 comments

r/Piracy · 1y ago

I've been pirating adobe products for the last 10 years, recently after their tightened security, I decided to try and reinstall some of my products. With each of them I encounter the same error message during installation.

Hi, so I've seen an increase of these "licenses" on Ali express. I'm presuming cracked codes/ cracked keys? Does anyone have experience with these? Is it real or just a scam? Thanks in advance

Is it worth to pirate a video editor software? Or are there free decent options?

50 votes · 48 comments
