Issue since upgrading to HA 2024.8 - connection refused

Since upgrading last month I can't get Frigate working. I changed nothing else except upgrading so I'm not sure what the issue is. The error from the log is below. Anyone got any ideas?

2024-09-14 11:41:00.143083482 2024/09/14 21:41:00 [error] 185#185: *4 connect() failed (111: Connection refused) while connecting to upstream, client: 127.0.0.1, server: , request: "GET /api/version HTTP/1.1", subrequest: "/auth", upstream: "<http://127.0.0.1:5001/auth>", host: "127.0.0.1:5000"
