Marconi_and_Cheese

how to remove gnome desktop in debian? (Already have cinnamon installed, tried gnome but want rid of it)

I installed gnome by using the task-gnome-desktop package. How is the easiest way to remove all of the other packages not needed by cinamon?

Try:

```
sudo apt autoremove --purge gnome-session
```

Browncoatinbox • 2y ago

```
sudo apt autoremove --purge gnome-session
```

I ran this and i get "unable to locate package gnome-session"

The easiest and most reliable way is to run tasksel and uncheck the DEs you want to remove.

**markartman** • 2y ago

Try it without the -session at the end
