SoggyQuailEggs

Pass + SimpleLogin lifetime deal

[Discussion](#)

I have a SimpleLogin premium account and a Proton free account. These accounts are not linked.

I would like to purchase the Pass + SimpleLogin lifetime deal. Do I link my accounts before or after making this purchase?

Link the accounts before making the purchase: <https://simplelogin.io/blog/simplelogin-proton-pass-lifetime/>

If you already have one, make sure it's linked to your [SimpleLogin account](#). You can do this from your SimpleLogin dashboard.

Is there any way to verify my account is set to go now with the lifetime plan? I followed the instructions, made the purchase, so I think I'm likely fine. But I don't see anything in my dashboard about a plan, other than it saying "Premium" under my name in the top right corner. I'm a sucker for solid confirmation it worked.

Thank you. I was wondering about that, because I have Duo premium and what would happen if i bought the lifetime Protonpass + SimpleLogin too. I appreciate this advice

I'd steer away from linking them unless you're only using a custom sub domain. I made the mistake of linking my existing SL and new Proton accounts recently and a sync issue wiped out all my aliases in SL. They provide literally no way of recovering them either unless you're using a custom sub-domain. The kicker is a few of the accounts I have linked to the @aleeas.com domain only support changing the address if you click a link sent to the original address 😞 SL support basically said it was my fault and there's no way to recover. Not a great start with Proton..

linking and syncing is not the same....

But later if they forcefully merge the two (again IF) this still will be a user error category, because syncing is not deletion!

Making them non recoverable is also a different issue than any of above!
