PiKVM-update ends in error

Currently sitting on version 3.33 when I try the pikvm-update I receive the following error ? is there a workaround ?

Probably geo-ip fail in the upstream repo. Edit /etc/pacman.d/mirrorlist and replace hostname to some other mirror. like de3.mirror.archlinuxarm.org

This was the fix for me, it was defaulting to the NJ repo which wasn't working correctly.
