They already skipped him in the movie, so it should be hard to give him much screen time later

Anime took so long the community got trapped in a 2018 time bubble 🤖

Well. I finished most of the light novel and forgot about the first season's anime plot.

If they waited a bit longer I may even made a profitable business, found a woman, got married and had children.

And consider that now I don't even have a girlfriend anymore.

A leak from an animator that is next year doesn't sound nearly as secure as "the studio has announced this date" that I hoped from the title but I'll take it.

When I say that Youjo Senki's movie is a strange mix of scenes from the novel, this is what I mean.
