Is there a way to remove the subtitle background on Plex for Apple Tv?

Solved

Theres a shaded boxy background that i want to remove. I would prefer to be able to format the subtitles to my liking ala infuse.

if these are regular SRT subtitles then it should take on the settings you have for subtitles on your Apple Tv itself. `Settings>accessibility>Subtitles and Captions>Styles` . Then you may have to make a new style with the background opacity set to 0% and use whatever font and color you want that is on the system.

Dude you're a lifesaver. I was spinning my wheels wondering if I needed to update a setting in Plex or if I needed specific SRT files or something

Live TV needs to be removable. This is the entire reason I use plex. My kids should not see this stuff.

Plex on tv becomes unusable basically every time I turn on tv

I updated Plex while I had a show playing on my Roku TV and now I'm getting this issue. Help would be appreciated.
