## Is Peerless Battle Spirit good or nah?

**Question**

Want to give it a try since it has 500+ Chapters, most of the good ones have less than 200

I cringe a lot when I was reading it, I dropped it at chp. 45. Everyone seems just to be one dimensional characters, "I am stronger than you" arrogant types. No modest characters, no cunning characters, etc. No strong foundation for the story to begin into deeper. I have no attachment to the story or the characters.

The MC is meh..., I don't recommend reading it.

I liked it in the start, avg cultivation manhua. But the translation became so shit by the middle that i couldn't keep up anymore. Read till chap 327 before I dropped it. You can try if you got nothing to read but don't expect it to be too good. But it's not too bad either.

I got to 101 before I just couldn't take the horrible story telling and repetitive "I call MC trash for no reason so he beats them up" motif that appears to be the only literary trope the author can comprehend. People are much better off reading Martial Peak or I Shall Seal The Heavens if you want a story with actual plot and character development.

It's not good, the story is repetitive (MC gets called trash, everyone joins in for no discernible reason, he beats everyone yet people still call him trash and the cycle repeats). There is no rhyme or reason behind any of the actions that take place, him being called trash all the time made sense in the first 50 or so chapters when he hadn't established himself but it continuing to happen after that shows the author is a one trick pony. Also, the fact that EVERYONE jumps on this band wagon including sect leaders, etc. makes even less sense, especially since the people who do end up being his friends or backing him up have literally ZERO reason for doing so besides the author needing a handful of characters to be on his side. I don't want to say too much more for people who want to read it and spoil stuff (despite my failure to understand why they would want to after the above) but let's just say this might be one of the worse Manhua i've read to date. If you really want something good, head over somewhere like Asura Scans and read what they have, those are almost all certified bangers unlike this POS.

To give you an idea, the best waifu, who protects the MC and guides him at the beginning of the journey, truly loves the MC and sacrifices herself for him, she is... LEFT ASIDE. It's been a while since I read it, but basically, she starts following the antagonist because she fears he will harm the MC (since she doesn't know about the MC's real power). And what does the protagonist do? Does he rescue her? Does he become a hero? NO, he discards her under the pretext of 'you didn't believe in me'... Aaaa, come on... the girl was literally giving up her dignity for his well-being, and he discards her for 'not being visionary and recognizing a protagonist.' Damn Chinese author.

And it gets worse! After this nonsense, the protagonist starts getting involved with the most annoying character possible, who always looked down on him. He goes to a higher world – abandoning everyone, family, friends, unresolved relationships – and there he meets a bitch who only causes trouble, trying to kill him and his girlfriend just because he didn't agree with a business deal. And in response, the prota... marries her! Yeah... with no justification other than her 'being hot.' The girl caused havoc, tried to kill the one the prota loves most, but... who cares, she's hot and sorry, so I'm gonna marry her!

Save yourself from the suffering, even bad works are better than this. I DON'T KNOW, I REALLY DON'T KNOW HOW IT HAS 600+ CHAPTERS, the author must be rich and financing his own publication, because I wouldn't read this even under threat.

For anyone coming to this thread in the future, here's my two cents:

Just started reading today, the people in the manhua are written in the worst way possible. All characters are one dimensional, and are there purely for the MC and his opponents to kill and show off. The MC is truly the lowest of lows. An example is where in a competition between two clans, the rival crippled a person from MCs clan. In retaliation, the MC started murdering all his opponents from the rival's clan because "if you lose, you are trash and trash does not deserve life". And for some context, the MC was called and considered trash by everyone at this point, even his own clan. Like, WTF! Who hurt you, author?! That is absolutely NOT how it works! If you see someone doing bad things, you don't go and do way worse!!!!

When most manhua focus almost exclusively on a main character, having such a dog shit, moral-less, wannabe hero punk who is worse than the villain as the MC, it just makes the manhua unreadable.

Shit manhua. Not worth wasting your time on in the least.
