Until_Morning

What rank is Jinwoo at every level?

SL Manhwa

I'm writing a story based on Solo Leveling and I'm trying to figure out roughly what rank Sung Jinwoo is at every level. Like, would Lvl 20 and below be C Class? 20-40 B Class? 40-60 A Class? Etc.

Thanks!

- E ~ 1 to 5
- D ~ 6 to 10
- C ~ 11 to 20
- B ~ 21 to 40
- A ~ 41 to 60
- S ~ 61 to 100
- Nation-Level ~101+

Items and stats play a big role here. The levels and ranks line up roughly like this because of that.

Random guess, never read the novel just watched the anime. It probably isn't linear like how you're thinking about it.

My guess is that the gap between B and A is 50 at most

And then a jump from A to S has to be larger like 51-75? Maybe even 80?

How the S class distinguish themselves from there is probably really significant as it gets harder and harder to level up.

I have a list with all his lvl ups and statements at which lvl he is.

Its not finished but if you want i can send it to you, if you promise to me to NOT make it puplic because of my intention to finish it first and make it visually appealing and of couse because of the massive amount of time it takes to make

Until_Morning OP • 10mo ago

I can promise I won't make it public. I'm just using whatever I get here as a point of reference.
